

NOTICE
U.S. 51 ENVIRONMENTAL IMPACT STATEMENT
PUBLIC INFORMATION MEETING

The Illinois Department of Transportation will hold a second Public Information Meeting on Tuesday, March 18th from 3:00 to 9:00 PM at the Centralia Recreation Complex at 115 E 2nd Street.

The Project Team is offering another meeting to encourage feedback. The first meeting was not well attended, and public involvement is very important to having a successful project.

The purpose of the meeting is to

- Introduce the US 51 study to the public.
- Answer questions and receive comments from the public.
- Seek volunteers to be a part of a Citizens Advisory Group.

The limits of the study are the Christian/Shelby County line to the U.S. 51/IL 177 interchange (east of Irvington). The public is asked to submit comments and indicate interest in serving on advisory groups. These advisory groups will assist in determining the location of a future four-lane US 51 through or around the Centralia area and other areas within the project corridor.

The meeting will follow an open-house format with brief presentations on the hour as warranted. Persons with disability requiring special accommodations should contact Mr. Tim Jackson of the Illinois Department of Transportation (217-342-3951) to advise of planned attendance and needed accommodations.
